EDUCATION

Lovely Professional University
Master of Computer Application; (Pursuing)
Tilak College of Science and Commerce
Bachelor of Science (IT) -; CGPA: 8.52

Punjab, India
July 2025 - August 2027
Mumbai, India
July 2022 - August 2025

SKILLS SUMMARY

- **Languages:** C, C++, Java, Python, JavaScript, HTML, CSS
- **Frameworks & Libraries:** React.js, Node.js, Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn
- **Databases & Tools:** MySQL, MongoDB, Power BI, MS Excel, PowerPoint
- **Platforms & Environments:** Jupyter Notebook, Visual Studio Code, Git/GitHub, Netlify
- **Soft Skills:** Problem-Solving, Collaboration & Teamwork, Effective Communication

EXPERIENCE / PRACTICAL LEARNING

- Built academic and self-learning projects in Web Development (MERN Stack) and AI/ML applications.
- Applied programming knowledge (C, C++, Java, Python, JavaScript) to solve real-world problems.
- Strengthened data analysis, model-building, and visualization skills using Pandas, NumPy, Matplotlib, Seaborn.
- Practiced project deployment using GitHub, Netlify, and cloud tools (AWS).
- Improved collaboration and problem-solving skills through team-based college projects and personal initiatives.

PROJECTS

Service-Based Website | [Hamara-service-apke-ghar-tak.netlify.app](https://hamara-service-apke-ghar-tak.netlify.app) **December 23- February 2024**

- Developed a responsive web platform for showcasing local services (e.g., electrician, plumber, barber).
- Implemented frontend using React.js, HTML, CSS, and JavaScript for an interactive user experience.
- Integrated Firebase as the backend for authentication, real-time database, and data storage.
- Enhanced client engagement through structured service listings and feedback features.

CERTIFICATES

Python Essentials Course (NPTEL) **March 2023**

- Learned Python fundamentals including functions, loops, and data structures.
- Applied concepts in small projects and problem-solving exercises.

Data Analysis with Python (IBM) **Sep 2025**

- Gained hands-on experience in **data wrangling, cleaning, visualization, and exploratory data analysis (EDA)**.
- Applied libraries such as **Pandas, NumPy, Matplotlib, and Seaborn** to analyze real-world datasets.
- Strengthened understanding of **data-driven insights** for decision-making.

Deloitte Australia Data Analytics Job Simulation on Forage **October 2025**

- Completed a Deloitte job simulation involving data analysis and forensic technology
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusions
